**Subject:** hb218

To all parties concerned,

I cannot support HB218 at this time. I am especially concerned with two areas of it.

First, I feel that the word 'wildlife' CAN and WILL be confused at times to include predatory animals, which the Depart of FWP has no jurisdiction over at the current time.

Secondly, I feel there will be some instances where the use of 'artificial light' can be confused with an illegal activity where there is already a law in place to deal with.

In my opinion, the current law(s) pertaining to 'wanton waste' are enough.

In closing, I would hope the department would include the MTA in determining IF there is even a need to add more laws to those the existing. IF there were some reasons supplied before they wrote even the initial drafts, maybe the MTA could supply some insight. Just my thoughts.

John B. Graham Jordan, Mt.

VP East MTA
